

REFRIGERATED TRAILER SOLUTIONS

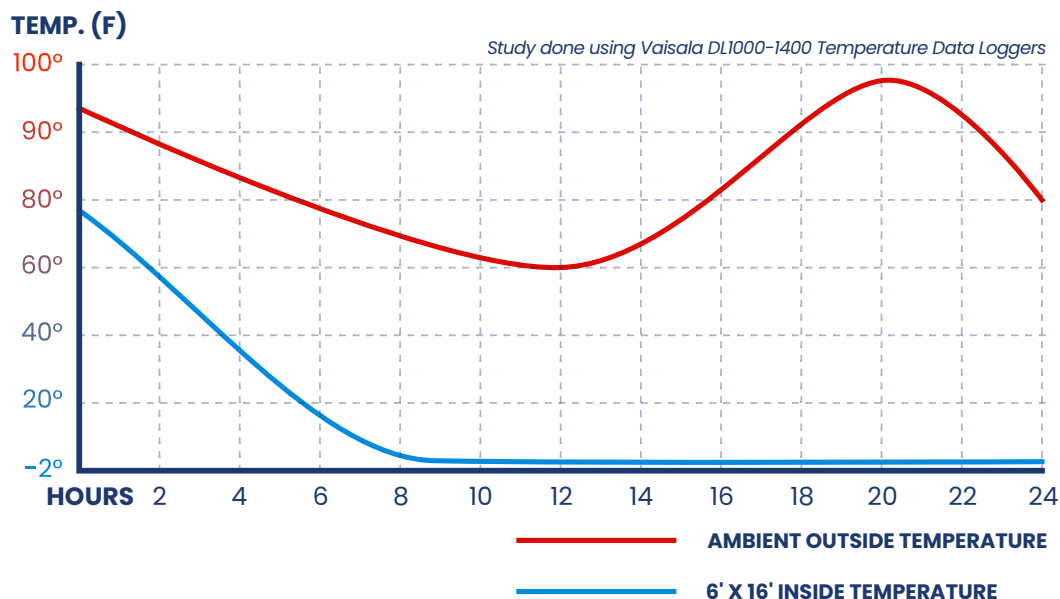

In North America, there has not been a professional, dedicated, and focused manufacturing company of small refrigerated cargo trailers. Polar King Mobile has changed all that with its line of mobile refrigeration solutions.

Temperature Testing and Validation Graph

UNIT SPECS

Dimensions:
6' x 16'

Storage Space:
564 ft³

Temperature Range:
0° to 50°F

Refrigeration Unit:
GOVI Arktik 2000US

Electrical Requirements:
110v 15 amp Single Phase

UNIT CONSTRUCTION

4" thick (R-28) roof and walls

3/4" Keg Duty Floor

54" x 70" Door

2 5/16" Coupler

Largest **Polar King Mobile** trailer holds 0°F (-18°C) in 95°F (35°C) ambient temperature.

AVAILABLE MODELS

Polar King Mobile trailers are constructed with a seamless fiberglass design and are available in three standard models, 6'x8', 6'x12', and 6'x16'. Each trailer features 54-inch reinforced doors, four-inch walls, and a pallet duty floor. The actual cooling of the trailer is achieved using a GOVI arktik 2000US series refrigeration unit. These compact units provide a temperature range of 0°F to 50°F, are all electric and require only 110V and 15 amps.

6' X 8'

Storage Space:
268ft³ (7.59m³)

Temperature Range:
0°F (-18°C) - 50°F (10°C)

Elec. Supply:
115v

Amperage:
15 MCA

6' X 12'

Storage Space:
416ft³ (11.78m³)

Temperature Range:
0°F (-18°C) - 50°F (10°C)

Elec. Supply:
115v

Amperage:
15 MCA

6' X 16'

Storage Space:
564ft³ (15.97m³)

Temperature Range:
0°F (-18°C) - 50°F (10°C)

Elec. Supply:
115v

Amperage:
15 MCA

APPROVED

NSF, National Sanitation Foundation, is a non-profit organization founded in 1944, whose goal was to create standards for food safety and sanitation to promote public health. When you purchase NSF certified foodservice products, it means: The manufacturer of foodservice products uses only FDA approved raw materials.

BENEFITS OF A SEAMLESS FIBERGLASS DESIGN

Polar King Mobile trailers are constructed with a seamless fiberglass design and are available in three standard models, 6'x8', 6'x12', and 6'x16'. Each trailer features 54-inch reinforced doors, four-inch walls, and a pallet duty floor.

The actual cooling of the trailer is achieved using a GOVI arktik 2000US series refrigeration unit. These compact units provide a temperature range of 0°F to 50°F, are all electric and require only 110V and 15 amps.

Polar King Mobile trailers are designed and engineered specifically for outdoor use. The patented process for constructing the one-piece structure Polar King walk-in refrigerated trailers incorporates urethane insulation completely encased in fiberglass, both inside and out. There are no seams and the structure remains completely intact so air and moisture will not deteriorate the insulation.

POLAR KING MOBILE APPLICATIONS

Polar King Mobile focuses exclusively on refrigerated trailer sales that solve a wide variety of existing and emerging needs. Currently in North America, there has not been an organized, focused, and funded effort to satisfy the needs of customers who want small, refrigerated trailers. Due to our manufacturing capabilities and construction methods, Polar King Mobile is uniquely positioned to serve these markets.

- ▶ Catering and Hospitality Industries
- ▶ Disaster Relief / Emergency Services for State and Local Governments
- ▶ Hospitals and Mobile Morgues
- ▶ Seasonal Demands
- ▶ Weddings
- ▶ Sporting Events and Concessions
- ▶ Corporate Sponsorships
- ▶ Exhibitions and Trade Shows
- ▶ Supermarkets and Food Processors
- ▶ Mobile and Fast Food Industry
- ▶ Florists and Growers

WHY BECOME A POLAR KING MOBILE TRAILER DEALER?

Polar King Mobile refrigerated trailers are not sold directly to the public. Instead, we are recruiting the best trailer distributors from North America to create a national network of value-added resellers. By essentially creating a new segment in the trailer industry, Polar King Mobile hopes the excitement of a new product that can be used by various end-users will open opportunities to dealers in search of something new.

Trailer dealers in North America may have had to turn away refrigerated trailer business for lack of a reliable OEM source. This is an exceptional and transformative family of products, specifically developed to meet the needs of the American refrigerated trailer and cold storage customer/end user.

- **New business opportunity with fresh revenue streams: rent, lease or sell refrigerated trailers.**
- **Ability to enter adjacent markets – with a refrigerated trailer that complements your current offerings.**
- **Serve and address new customer needs.**
- **No or low barrier to entry for the qualified trailer dealer.**

ABOUT POLAR KING

As the industry's #1 manufacturer of seamless fiberglass outdoor walk-in coolers and commercial walk-in freezers, Polar King units are designed to endure even the most rugged conditions and climates. All Polar King commercial walk-in coolers, freezers and refrigerated trailers are delivered fully assembled and require only a simple electrical connection to put them into operation. With a 100% seamless fiberglass design, Polar King offers the industry's only one-piece, outdoor unit. To learn more about the fiberglass advantage or for more information, call 888-647-8231 or visit www.polar-king.com.
